ST. JOSEPH'S HOSPITAL OF ESTEVAN ROOM UPGRADE CAMPAIGN

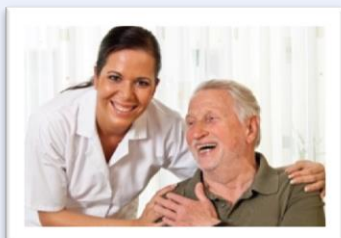

ACUTE CARE ROOM UPGRADES

Patients are admitted to acute care when they require assessments and interventions by medical professionals. The units on our Acute Care floor include medical, maternity, surgical and ICU. These rooms are 25 years old and are in need of major upgrades.

LONG TERM CARE ROOM UPGRADES

Residents are admitted to LTC when they can no longer be cared for in their homes. Our LTC facility has 38 residents including a unit for those living with cognitive impairment.

The design challenge of this unit is to maintain a home like environment while meeting the needs of those living with cognitive impairment or physical disabilities. With these units becoming dated, it is time for an upgrade.

A BENEFIT TO YOU...

- ✓ **Signage outside of the room that your donation is upgrading**
- ✓ **Your name on our state of the art Donor Wall in the Hospital's Rotunda**
- ✓ **Invitation to our annual Donor Appreciation Night**
- ✓ **Press release, photo, and publicity on our social media outlets**
- ✓ **A recognition statement of your legacy to healthcare in Southeast Saskatchewan**

COST: \$10,000
(Recognition For 10 Years)
